LEGAL OPINION

No. 101 Series of 1017

Respectfully forwarded to the Office of the City Mayor, through the Office of the City Administrator, both of this City, the above-cited subject with the information that this Office adopts the recommendation of the then Acting Secretary Ma. Mercedesita N. Gutierrez of the Department of Justice dated January 9, 2004, thus:

"Having this in mind, it can, therefore, be safely said that the proposal to limit the preparation, signing and sealing of architectural plans and designs to architects and the preparation, signing and sealing of structural plans and designs to civil engineers is in order."

IN VIEW WHEREOF, it is respectfully recommended that in the submission of plans to the City Engineer's Office for the purpose of securing a building permit, two sets of plans should be submitted by the building owner/representative. One set of the plan covering the architectural designs of the building should be signed and sealed by an Architect while the other set covering the structural designs of the building must be signed and sealed by a Civil Engineer.

RESPECTFULLY SUBMITTED.

  
JOSEPH DOMINICO S. FELIZARTA  
Legal Officer IV

CERTIFICATION

This is to certify that this legal opinion was arrived at personally by the undersigned based on the facts and issues presented/submitted in relation to the laws and jurisprudence.
